

## **GPSR Product Information – TP-003 Speed Increase Spindle (≈ +40%) incl. Timing Belt**

### **1. Manufacturer Information**

- Manufacturer: Maeh-Werk Spindelmaehertuning e.U.
- Address: Sterzinggasse 5, 4055 Pucking, Austria
- Contact: office@maeh-werk.at
- Country of origin: Austria

### **2. Product identification**

- Product Name: Speed increase spindle (≈ +40%) incl. timing belt
- Item number: TP-003
- Material: Plastic/composite material (no metal parts)
- Weight: Depending on the model
- Compatibility: according to shop information

### **3. Product Description**

The speed increase spindle increases the spindle speed by approx. 40%. It allows for a finer section of the blades, a more precise cutting result and more cuts per metre of travel. This improves the cutting quality and the 5-blade spindle achieves higher cutting performance. The conversion is non-destructive and can be dismantled at any time.

### **4. Safety and Warnings**

- Mounting only on the switched off device
- moving parts can cause injuries
- Check the tight fit of all components before use
- Do not use with damaged timing belt
- Keep children away

### **5. Installation instructions**

- The complete assembly instructions are available for download in the shop
- Before assembly: Switch off the device, remove the original belt - replace it with the supplied one
- After installation: Check belt tension, check again after a short period of use

### **6. Care and maintenance**

- Regularly check timing belts for wear
- Replace straps immediately in case of tears or fraying
- Keep moving parts clean
- Inspect plastic parts for damage

### **7. Disposal**

- Plastic and composite parts are recyclable
- at the recycling center
- Do not dispose of it with household waste

### **8. Compliance**

This product meets the requirements of EU Regulation 2023/988 (GPSR). Internal batch and series identification is maintained.
